Notes:

- In June 2009, the Ontario government adopted a new, inclusive definition of the Francophone population (IDF). **Francophone** are "persons whose mother tongue is French, plus those whose mother tongue is neither French nor English but have a particular knowledge of French as an Official Language and use French at home" (Office of the French Language Services Commissioner of Ontario, 2016).
- Knowledge of French Language** refers to whether the person can conduct a conversation in French only, or in both English and French language. For a child who has not yet learned to speak, this includes languages that the child is learning to speak at home (Statistics Canada, 2016).
- Mother tongue** refers to the first language learned at home in childhood and still understood by the person at the time the data was collected. The person has two mother tongues only if the two languages were used equally often and are still understood by the person (Statistics Canada, 2016).
