## Age of respondents with a Non-Official Mother Tongue

**Proportion under 24: 4.9%**

**Proportion aged 25-54: 24.0%**

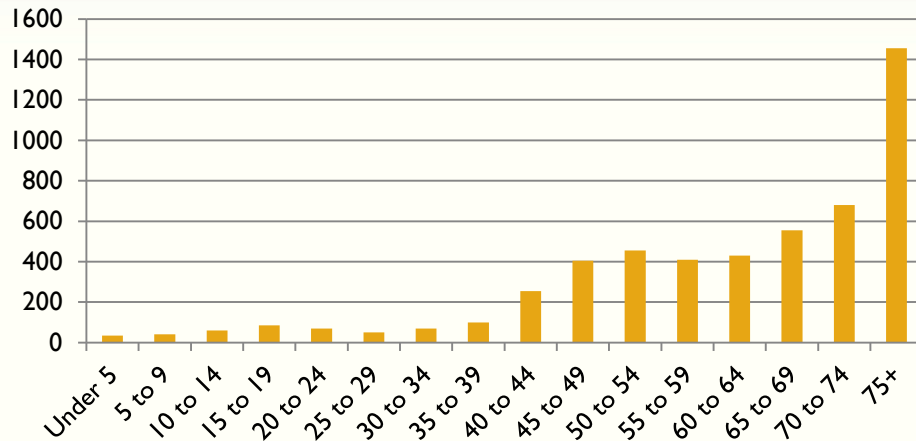

**Proportion aged 55: 70.9%**

# Differences In Languages

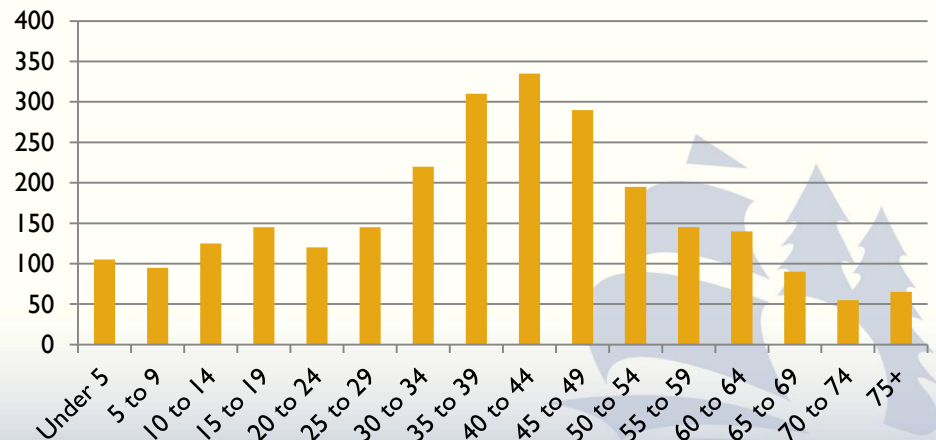

## German: Age for Simcoe County

While some languages may be more prominent, we also observe a declining population. One example, German, has shown a decrease across most of Simcoe County. We can understand this trend more clearly by looking at the age of these individuals. From this we can observe an aging population.

On the other hand, some languages are experiencing considerable growth across the county, such as Spanish. When looking at this population we can see there is considerable more youth and core working age individuals.

## Spanish: Age for Simcoe County

# Further Information

---
