

Your Baby at 9 Months

Child's Name _____

Child's Age _____

Today's Date _____

How your child plays, learns, speaks, acts, and moves offers important clues about your child's development. Developmental milestones are things most children can do by a certain age.

Check the milestones your child has reached by the end of 9 months. Take this with you and talk with your child's doctor at every visit about the milestones your child has reached and what to expect next.

What Most Babies Do at this Age:

Social/Emotional

- May be afraid of strangers
- May be clingy with familiar adults
- Has favorite toys

Language/Communication

- Understands "no"
- Makes a lot of different sounds like "mamamama" and "bababababa"
- Copies sounds and gestures of others
- Uses fingers to point at things

Cognitive (learning, thinking, problem-solving)

- Watches the path of something as it falls
- Looks for things he sees you hide
- Plays peek-a-boo
- Puts things in her mouth
- Moves things smoothly from one hand to the other
- Picks up things like cereal o's between thumb and index finger

Movement/Physical Development

- Stands, holding on
- Can get into sitting position
- Sits without support
- Pulls to stand
- Crawls

Early Screening Matters encourages regular conversations about your child's development with:

- Registered Early Childhood Educators (RECE) in Licensed Child Care Centres
- EarlyON Program Facilitators
- Community Action Program for Children (CAPC) Program Facilitators
- Health Care Providers and Public Health Nurses

Help Your Baby Learn and Grow

You can help your baby learn and grow. Talk, read, sing, and play together every day. Below are some activities to enjoy with your 9-month-old baby today.

What You Can Do for Your 9-Month-Old:

- Pay attention to the way he reacts to new situations and people; try to continue to do things that make your baby happy and comfortable.
- As she moves around more, stay close so she knows that you are near.
- Continue with routines; they are especially important now.
- Play games with “my turn”, your turn”.
- Say what you think your baby is feeling. For example, say, “You are so sad, let’s see if we can make you feel better.”
- Describe what your baby is looking at; for example, “red, round ball”.
- Talk about what your baby wants when he points at something.
- Copy your baby’s sounds and words.
- Ask for behaviors that you want. For example, instead of saying, “don’t stand”, say “time to sit”.
- Teach cause-and-effect by rolling balls back and forth, pushing toy cars and trucks, and putting blocks in and out of a container.
- Play peek-a-boo and hide-and-seek.
- Read and talk to your baby.
- Provide lots of room for your baby to move and explore in a safe area.
- Put your baby close to things that she can pull up on safely.
