Local Immigration Partnership: Business Development Sub-Council Work Plan

Local Immigration Partnerships (LIPs) support the development of local partnerships and community-based planning that support successful outcomes for newcomers. A settlement Strategy is built on the principles of **attraction**, **recruitment**, **integration**, **and retention**.

The Simcoe County Local Immigration Partnership launched the Community Settlement Strategy on November 17, 2012, following a yearlong community research process. The research identified issues and barriers impeding immigrants' success. Four themes emerged from the research, which provide a blueprint for establishing Simcoe County as a welcoming community:

Readiness: Strengthen basic public services to promote retention

Opportunity: Promote employment and business opportunities

Celebrate: Demonstrate a supportive environment and celebrate diversity

Inspire: Empower newcomers to contribute to local leadership capacity

These themes provide a blueprint for establishing Simcoe County as a welcoming community and guide the focus of the initiatives supported the by the Simcoe County Local Immigration Partnership.

One area that Business Development Sub-Council is specifically mentioned in the Local Immigration Partnership Settlement Strategy is:

Settlement Strategy				
Theme	Action			
Opportunity:	Establish priorities with the Business Development Sub-Council, considering			
Promote Business	the recommendations from Millier Dickenson Blais Report:			
Opportunities	Establish an immigrant entrepreneurship program linking business			
	class immigrants with local community businesses interested in			
	selling established enterprise			
	Link newcomers to available resources for starting new business			
	ventures
