

Coordinated Access in HIFIS

July 26, 2022

Introduction

- Today's session will review fields which require data to be input into HIFIS for Coordinated Access, as there are some new fields and modules you may not have utilized in the past.
- You should have basic knowledge/training in HIFIS and the modules that are currently being utilized.
- This is not a Coordinated Access (CA) information session.

By-Name List & Coordinated Access

- The By-Name List (BNL) will be in HIFIS (Aug 1st, 2022).
- Prioritization for Coordinated Access (CA) resources will be run from a customized report that was developed to match the established community priorities.
- It is critical to identify where the information should be recorded in HIFIS so you know where the system will be pulling it from.

Consent

- The consent status on the left-hand client profile will display active when there is an active consent record, but this does not guarantee the documents have been uploaded.

Consent Status	Active
Client State	Active
Housing Status	Chronically Homeless

- The document must be attached to the active 'Explicit' consent record, and should not be uploaded in the 'Documents' section.
- There **must** be both, Explicit and Coordinated Access Consent on the account.

The Busby Centre - Barrie	2020-01-10 --	Explicit	consent.pdf	 
The Busby Centre - Barrie	2020-01-10 --	Coordinated Access	None	 

By-Name List Active Status

- This is a list from the HIFIS 4.59 Manual of activities that will keep a client active in HIFIS and on the BNL.
- If a client is not active in HIFIS, they cannot be prioritized for CA resources.

Table 1: Service Table – Transactions Making Clients to Be or Remain Active

Module	Transaction
Admissions	Client is booked into a shelter
Assessment	Assessment is conducted (SPDAT, VI-SPDAT, VAT)
Calls and Visits Log	New record (Add Log) in Call and Visit Log is created
Case Management	New record (Add Case) in Client - Case Management List is created
Case Management	New record (Add Session) under the Sessions tab in Display Case Management is created;
Case Management	New record (Add Comment) under the Case Comments tab in Display Case Management is created
Food Banks	New record (Add Food Bank Transaction) in Client – Food Banks is created
Goods and Services	New record (Add Goods and Services Transaction) in Client – Goods and Services is created
Group Activities	Client is identified as an Attendee in a Group Activity
Housing Placements	New record (Add Housing Placement) in Housing Placement List is created
Housing Placement	New record (Add Follow-up or Add Housing Placement Attempt) in Housing Placement Details is created
Housing Loss Prevention	New record Housing Loss Prevention interaction is created
Medication Dispensing	Client is provided medication through Medication Dispensing in Front Desk – Medication Dispensing
Service Restrictions	New record (Add Service Restriction) in Client – Service Restrictions is created
Storage	New record (Add Storage Item) in Client – Storage is created
Survey	Client takes a survey in Client Management-Survey

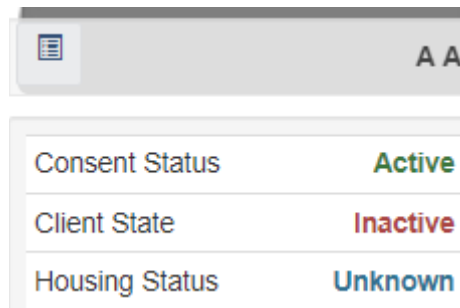

Client Information - Housing History

- Housing History should be collected for the past 12 months when a client is new to HIFIS or has not engaged with the system recently.
- Housing history should be verified and updated in HIFIS with each interaction.
 - “I noticed you weren’t in shelter last night, where did you stay?” or “We haven’t seen you for a while, where were you staying?”
 - These questions also help us to understand migration patterns both within Simcoe County and those coming/returning to Simcoe County from another location.

Client Information - Housing History

- This information is significant as the system does not know what to do with missing data and will not be used in calculating the length of homelessness.
- When discharging a client, you should enter a Housing History entry if you know where they are going, or when they have been **housed**.

A screenshot of a web application interface showing a table with client information. The table has three rows: 'Consent Status' with the value 'Active', 'Client State' with the value 'Inactive', and 'Housing Status' with the value 'Unknown'. The table is displayed within a window-like container with a title bar containing a list icon and the text 'AA'.

Consent Status	Active
Client State	Inactive
Housing Status	Unknown

Client Information - Housing History

Below you can see we have both an open Housing History record an Admission into shelter, which causes conflict. Even if the client is in shelter the system may identify them as another status., meaning they will not appear on the BNL.

Client - Housing History

Please ensure you are closing any open Housing History entry when adding another or if it is no longer valid.

Client Information – Housing History

- When an address has not been updated or verified in the last 30 days, you will receive a text box indicating it needs to be updated.
- You can either update the changes or verify the address is still accurate.

▲ The Housing History is out of date. Please update the client's [housing history](#).

Housing History – Institutional Entries

- It is essential moving forward that all institutional stays are captured in HIFIS, as both the HPP and Reaching Home reporting require this information.
- The institution information, including the name to determine if it is a Provincial or Federal Institution for reporting.
- Clients in institutional settings are classified as a transitional status.

Client Information – Family

- It is important to verify and update the family module of HIFIS. This information determines the size of a household when prioritizing for relevant resources.
- It is important that the Family head provide consent for dependents and that all members that are to be housed together are listed in the 'Family' module of HIFIS.
- This information should be verified at minimum monthly and updated when there are any changes.

Client - Family Family History

Showing 1 to 2 of 2 entries | Show 10 entries Filter items

Contributing Factor	Start Date	End Date	Action
Documented Disability	2022-07-25	--	 

Life Events

- Here we are capturing if a person has a 'History of Foster Care,' which refers to being in the Foster Care system.

The screenshot shows a web form titled "Client - Add Life Event". The form has three main input fields: "Life Event", "Start Date", and "End Date". The "Life Event" field is currently open, displaying a dropdown menu with the following options: "Family / Relationship Breakdown", "Death of close family member", "History of Foster Care", "Personal injury or illness", "Mental Health", and "Loss of Limbs / Mobility". The "History of Foster Care" option is highlighted. A red star icon is visible next to the dropdown arrow. A "Cancel" button is located at the bottom right of the form.

Client Information - Financial Profile

- A client's income is recorded in the 'Financial Profile' section of HIFIS.
- This is to demonstrate that they have income to pay for accommodations.
- All income sources should be recorded in this section.

Client Management - SPDAT

- The community is using the VI-SPDAT versions in HIFIS.
- Copies of the VI-SPDAT's are available on the HIFIS Support Centre.
- You must complete the VI-SPDAT in HIFIS, even if you did it on paper, so the system can pull the necessary information.

Client - SPDAT Intake

Lighthouse - Orillia Christian Centre	2022-07-26 9:54 AM	A, G	Adult	2	10	

Coordinated Access Module

- The Coordinated Access module of HIFIS will be available to SuperUsers only.
- It can be found in the 'Front Desk' drop-down in HIFIS.
- Individuals on this list must have both 'Explicit' and 'Coordinated Access' consent.

Coordinated Access Module

- This module takes time to load as it is a large list, so please be patient.
- This can help SuperUsers quickly determine clients who have not been updated, are missing the VI-SPDAT.
- The document can be exported with or without names but must be stored securely.
