**EMPTIES CONTAINERS**

Rigid Plastic Packaging marked:

- (some exceptions apply)

Coffee and Tea
- Plastic Lids

Plant Pots and Trays
- (no cell packs)

Aluminum Plates and Foil

- FACT
  - Only 26% of aluminum plates and foil end up in the recycling

Gable Top and Tetra-pak™ Containers

- FACT
  - Gable top milk and juice containers, Tetra-pak juice and broth boxes go in the blue box

Spiral-wound Containers

**PAPER FIBRES**

Corrugated Cardboard Boxes

- Flatten and tie in bundles (Max. 75 cm x 75 cm x 20 cm)

Paper

**ORGANICS**

Food Waste

- Tea bags, coffee grounds, and filters
- Corn cobs and husks
- Eggs and egg shells
- Grease and fat
- Halloween pumpkins
- Meat, fish, and bones
- Nuts and shells
- Pet food

Soiled Paper Products

- Pizza boxes
- Wax paper
- Microwave popcorn bags
- Paper cups (loose - not stacked)
- Paper plates
- Paper towels and tissues
- Fast food drink containers

Pet Waste

- Household pet faeces
- Kitty litter (no plastic litter liners)
- Hamster/guinea pig cage bedding (wood and cedar shavings)
- Newspaper from bottom of bird cages

**NEW! Pet Waste in Green Bin**

**GARbage**

FACT

- Coffee disks go in the garbage, even the ones labelled as compostable or recyclable

FACT

- All coffee disks and single-serve coffee pods (K-cups)
- Plastic bags and film (over wrap)

FACT

- Black plastic goes in the garbage because optical sorters at the recycling facility confuse this item with the conveyor belts

FACT

- Styrofoam packaging and peanuts
- Black plastic
- Plastic cutlery
- Baby wipes and diapers
- Dryer sheets
- Feminine hygiene products
- Toys
- Textiles
- Vacuum bags
- Window glass (boxed and sealed)
- Wrappers (foil and plastic)
Aerosol, beverage, and food cans
Glass bottles and jars
Paint cans (Lids removed)

**DO NOT INCLUDE**
- Black plastic
- Styrofoam
- Plastic bags and film
- Drinking glasses and window glass
- Ceramics
- Plastic toys
- Wrappers (candy and chips)
- Motor oil bottles
- LCBO and beer bottles

**DO NOT INCLUDE**
- Paper cups
- Paper plates
- Soiled paper
- Tissues and paper towel
- Waxed cardboard
- Waxed or foil-coated paper

**DO NOT INCLUDE**
- Plastic corks
- Cotton swabs
- Drinking pouches

Other Items
- Cold wood ashes (wet and in a compostable bag)
- Dryer lint
- Feathers and hair

**DO NOT INCLUDE**
- Recyclable and organic materials
- Hazardous waste (medication, batteries, paint, etc.)
- Yard waste

**Where do things go?**
Simply type the item, and just like magic, the Wizard will tell you what bin it goes in, visit: simcoe.ca/wastewizard
Simcoe County residents continue to do a tremendous job of managing their household recycling, organics and waste streams. Due to your participation and waste sorting habits at home, we continue to rank among the very best in the Province in waste management.

In 2018, the County made an increased commitment by investing in promotion and education of our programs, particularly our green bin service. We visited many of our municipalities with our green team and giant green bin to raise awareness about the importance of growing your green bin, not your garbage. We also executed a creative marketing and advertising campaign focused on encouraging and motivating residents to reduce their garbage.

We added new services, with the introduction of curbside textile and electronics collection weeks. We also took an important step to support the reduction of garbage by accepting pet waste, kitty litter and small animal bedding in our green bin program, an addition our residents have long been asking us for. The addition was made possible due to an agreement with a new facility to process our organics in the short term, as we continue with the development and approval of our own Environmental Resource Recovery Centre (ERRC).

These initiatives support our concerted effort to reduce the amount of garbage Simcoe County produces. Despite tremendous improvement over the past few years, we are still only capturing approximately 42 per cent of organic materials in our green bins. That means that almost 58 per cent of organic materials are still ending up in our garbage stream – we can do better!

Our 2019 efforts will continue to focus on shifting these statistics with education, promotion and convenient programs such as our textile, electronics, battery and leaf and yard waste curbside collection services.

Our award-winning Learning and Living Green program continues to expand. This year, we have more than 100 regional schools participating in the program as we work to educate students about waste management.

In addition to the ERRC infrastructure project, we’re also developing new Household Hazardous Waste drop-off opportunities that will provide residents in the southern part of the County with access to a free drop-off centre where household hazardous materials are properly contained, managed and removed without impacting the environment. The new facility will bring our total to five household hazardous waste drop-off locations spread out across the County.

2019 will be a busy year at the County. We thank you for your ongoing participation and efforts to reduce your garbage stream and utilize our many services and programs aimed at supporting the environment and making your waste reduction efforts more convenient and successful.

Take care,

Mark Aitken
CAO, County of Simcoe
ENVIROMENTAL RESOURCE RECOVERY CENTRE

Planning for our future!

Faced with rising costs, new provincial waste regulations, and closure of County landfills, we’re working to manage your waste differently by building the Environmental Resource Recovery Centre (ERRC). Currently under development at 2976 Horseshoe Valley Road West in Springwater, here we’ll locally process green bin organics and manage the transfer of garbage and recycling. With education space, this facility will showcase our commitment to diversion and reducing what we send to landfill.

Following a comprehensive siting process and direction from County Council, the land use planning process continues. Planning amendments are required at both the County and local levels. Over 2019, focus will shift to design and more detailed technical studies outlining how the facility will be constructed and safely operated.

For up-to-date information or to sign up for e-mail updates, please visit:

simcoe.ca/ERRC

Sat: 8:00 AM – 4:00 PM

Hours of operation are subject to change. Sites are closed on statutory holidays unless otherwise noted. Payment methods include cash, debit, Visa, and MasterCard (except where noted).
Green Bin Requirements

Step One
Remove plastic packaging from food and place food scraps in the kitchen bin.

Step Two
Empty kitchen bin into the green bin frequently. Wrap organics in newspaper or use paper and/or certified compostable bags. Place bagged pet waste inside the green bin. Look for these symbols:

- Plastic bags or bio-degradable bags are not permitted in the green bin.

Step Three
Place securely-latched green bin at the curb by 7 a.m. on your collection day. Maximum weight limit per container is 20 kg (44 lbs).

Acceptable Pet Waste
- Household Pet Faeces
- Kitty Litter – no plastic kitty litter liners
- Hamster/guinea pig cage bedding (wood and cedar shavings)
- Newspaper from bottom of bird cages
## Garbage Requirements

### Garbage Limits

**Weight and Volume Per Container**
- 1 untagged bag and up to 3 tagged bags for a maximum of 4 bags or containers weekly per property.
- Maximum size is **80 L or 90 x 75 cm bag**.
- Maximum weight per container is **20 kg. or 44 lbs.**

**Double-Up Day**
- Two untagged garbage containers the 1st collection after Christmas ONLY

### Garbage Tags

**Up to 3 Bags**
- Must have a County garbage tag affixed to each additional bag/container.

**Tag Placement**
- Place tag on the uppermost article inside the container or place tag around the neck of the bag.

**Price Per Garbage Tag**
- **$3** per tag sold in sheets of 5

For a list of tag outlets, visit simcoe.ca or contact Service Simcoe

**TO ENSURE COLLECTION, WE RECOMMEND...**

**Option 1**
- Maximum: 20 kg and 90 x 75 cm

**Option 2**
- Maximum: 20 kg and 80 L

For additional waste, garbage tags must be affixed. If you use a larger container, use a standard size garbage bag (90 x 75 cm) to avoid exceeding volume and weight limits.

County *Waste Audits* indicate the average household garbage weighs **5 kgs.** If yours weighs more, check the sorting guide on page 1 to see what else you can recycle.
Recycling Requirements

CONTAINERS and PAPER

Two-stream Collection
Separate paper from containers. If you don’t know where things go, please visit: simcoe.ca/wastewizard.

Containers
Go in the blue box. Rinse food residue from containers and remove and include lids. Place containers loose in the blue box.

Papers
Go into a separate box from your containers. Only use the larger blue box for containers, not for paper, due to weight restrictions. Cardboard should be flattened and tied in bundles (max. 75 cm x 75 cm x 20 cm).

Recyclables
Must be curbside by 7 a.m. on your collection day. Extra/overflow recycling may be put in blue or clear bags with paper separate from containers. Do not overload recycling boxes. To reduce wind-blown litter, boxes may be stacked.

We all play a role in keeping our community recycling programs running properly, do your part!

aluminum plates and foil, as well as juice and broth boxes go in the blue bin
Christmas Trees
must be at the curb by 7 a.m. on Monday of your collection week. View set-out requirements on page 17.
Winter Reminders

- Place waste in a visible location at the end of your driveway, not on a snowbank. If necessary, clear a small area.

- To prevent material from freezing, line your green bin with newspaper and keep recyclables in a dry location.

- Stack recycling boxes and do not overfill to prevent materials from blowing out.

- If materials are hit by snow-removal equipment or are filled with snow prior to collection, it is the resident’s responsibility to clean up the materials.

- If inclement weather or poor road conditions result in the cancellation of collection services, the normal practice is to collect double the following week.

- Blue or clear bags can be used for extra recycling.

Weather may affect your waste collection! Sign up for free collection alerts at: simcoe.ca/wastereminder

Waste collection is occurring
The Green Bin Grew Again!

• Remember that biodegradable and plastic bags, plastic liners and litter boxes are not accepted in the green bin.

• Kitty litter must be contained in newspaper or compostable bags, look for these symbols:

![Compostable Symbol]

• Pet waste can be put into the green bin as the high technology processing system utilized by the County can safely manage pet waste. Don’t place pet waste in a backyard composter or directly apply to gardens as it contains bacteria. The backyard composting process does not reach the temperatures required to kill harmful bacteria.

• Maximum limit per green bin is 20 Kg (44 lbs.). If you need more bins please call Service Simcoe at 1-800-263-3199.

Acceptable Pet Waste

• Household Pet Faeces
• Kitty Litter – all types; no plastic kitty litter liners
• Hamster/guinea pig cage bedding (wood and cedar shavings)
• Newspaper from bottom of bird cages
Did you know...

Wood ashes can remain hot enough to cause a fire for days? Wood ashes must be completely cold and placed in a compostable bag for collection in the green bin.

---

40% of residential garbage is comprised of food waste, tissues, paper plates, and other organic waste that should go into the green bin. When these items breakdown in the landfill they produce methane, a greenhouse gas 20 times stronger than CO₂, and contribute to the production of leachate, which can negatively impact groundwater resources.
Yard Waste Collection

Bi-weekly yard waste collection takes place during specific weeks in the spring and fall. Determine your collection area/week by looking at the map. Place material out for collection by **7 a.m. on Monday** of your collection week. Collection will occur during the week, **not necessarily on your garbage day**.

**Acceptable Materials**
- Leaves
- Grass
- Garden waste
- Cornstalks
- Brush straw bales

**Unacceptable Materials**
- Pet waste
- Flowerpots
- Rocks
- Stumps
- Plastic bags
- Kitchen waste
- Lumber
- Dirt
- Plastic bags
- Kitchen waste
- Lumber
- Dirt

**QUICK TIP**

Bundle with string, maximum 2 m long and 30 cm in diameter
Use Kraft paper yard waste bags, compostable bags,
cardboard boxes, or open-ended rigid containers
for your yard waste

Bulky Item Collection

Available June through to the last week of September. Call 1-800-263-3199. Maximum of five items per scheduled collection. Material must be at the curb by 7 a.m. on your scheduled bulky collection day. Payment and a list of items to be collected are required at the time of booking. Appointments must be booked in advance. This service is subject to availability, book early to avoid disappointment.

5 items for $40

Acceptable Materials

- Mattresses
- Furniture
- Electronics
- Appliances (including CFC)
- Metal
- Wood Waste
- Bath Fixtures
- Carpeting bundled and rolled (Max. 2.5 m X 30 cm in diameter, 1 bundle = 1 item)

If you don’t have 5 items, team up with neighbours and get more bang for your buck!

Did you know...

Needles should never go into the garbage or recycling? These should be taken back to the pharmacy or a household hazardous waste facility for safe, free disposal.

Leaf and Yard Collection Week: ZONE 1 ONLY

Leaf and Yard Collection Week: ZONE 2 ONLY

Leaf and Yard Collection Week: ZONE 1 ONLY

Leaf and Yard Collection Week: ZONE 2 ONLY

Leaf and Yard Collection Week: ZONE 1 ONLY
Clothing Collection

If you already donate used clothing, please continue to do so. Alternatively, help us keep textiles out of the garbage!

A special curbside collection of used clothing and textiles will occur in June. Textiles placed out for collection must be dry and odour free but may be torn, stained, etc. as these can be made into industrial rags and some textile fibres can be recycled. Watch for information and a textile bag in your mail. Place extra material into clear bags for collection. Sealed bags must be out on your regular collection day at 7 a.m. of your specific week. The County reserves the right to refuse collection of improperly set-out or ineligible material.

Acceptable Materials
- Used clothing
- Towels and pillows
- Clean undergarments
- Linens
- Coats and Hats
- Scarves
- Belts and purses
- Backpacks
- Luggage
- Shoes, socks and mittens in pairs (wrap with elastic to hold together)

Unacceptable Materials
- Damp/wet items
- Single shoes/socks/mittens
- Small fabric scraps
- Garbage
- Dirty items

must be DRY and odour free
### Cut it and leave it, it's better for your lawn

Clippings contain Phosphorus, Nitrogen, and Potassium - three major nutrients for your lawn! Grass clippings put nutrients back in the soil, they contain 80 - 85% water and decompose quickly.

### Did you know...

**propane tanks should never be put in the garbage or recycling?** Pressurized tanks can pose a significant safety hazard, for this reason they should be taken to a County waste facility for safe, free disposal.
Household Hazardous Waste

See page 3 for facilities where residential Household Hazardous Waste (HHW) materials can be disposed of safely and free of charge.

Ensure containers are clearly labelled, secured, and leak-proof. Never combine products and keep HHW materials separate from other materials in your load, as explosive or poisonous chemical reactions may occur.

For commercial hazardous waste, visit: simcoe.ca/waste

Acceptable Materials
- Paints and stains
- Oil, transmission, and antifreeze fluids
- Batteries
- Fire extinguishers
- Oil filters and containers
- Fluorescent bulbs and tubes
- Gasoline (containers cannot be returned)
- Solvents
- Household cleaners
- Swimming pool chemicals
- Pharmaceuticals
- Mercury thermostats
- Pesticides (fungicides, herbicides, insecticides)
- Fertilizers
- Propane tanks and cylinders
- Needles and syringes (in approved containers)

Unacceptable Materials
- Explosives (spent fireworks, flares, ammunition, gun powder, etc.)
Small amounts of **Cooking Oil** go in the **Green Bin**

Freeze or leave to harden before placing in the green bin, or place in a compostable container (i.e. paper food container). Cooking oil may also be recycled at no cost at selected County of Simcoe Waste Management Facilities.

11 - Household Hazardous Waste
Waste Drop-off Facilities Tips

• Busy times are on Saturdays and early in the week; avoid these days if possible.

• Material not properly sorted into the designated diversion area cause your entire load to be charged at the mixed-waste rate of $310/tonne.

• Separate materials in your load. Divertible materials may be free or qualify for a reduced fee (see page 3 for more information).

• There is a minimum fee for garbage disposal; avoid coming to the facility with small loads.

• Propane cylinders are accepted free of charge but please do not put them in the garbage or recycling. Notify site staff upon arrival at the facility as they are managed differently for health and safety reasons.

• All vehicles must enter the scale on a green light and declare what type of waste materials you have.

• Due to health and safety policies, staff cannot assist with the lifting or removal of waste from vehicles.

• Prior to leaving the site, vehicles must return to the scale. The computerized weigh scale system calculates waste disposal charges.

• Payment is due prior to leaving the site.
Wish-cycling is the practice of tossing questionable items in the recycling bin

When recycling boxes contain unacceptable items they may be rejected and may end up in the landfill. Do your part and don’t place incorrect items in the bins. Don’t know where things go? Visit, simcoe.ca/wastewizard

Call for Bulky Collection this Month

Civic Holiday
Waste facilities closed
Waste collection is occurring
Electronics Collection

Help us keep electronic waste out of the landfill. A special collection for electronics and small electrical items will occur during September. Delete all personal data and place bags and larger loose items out at the curb on your regular collection day at 7 a.m. of your specific week. The County reserves the right to refuse collection if improperly set-out or over-weight (20 kg).

Acceptable Materials
- Computers, printers, televisions, and monitors
- Cellular phones and video gaming consoles
- Small appliances (toasters, kettles, electric mixers, etc.)
- Personal care (Hair dryers, electric shavers, etc.)
- Cords and small corded power tools

Unacceptable Materials
- Packing material
- Disk/games
- Coffee pots
- Light bulbs
- Large appliances
- Batteries and toys
- Cardboard boxes
## ELECTRONICS COLLECTION CANCELLATION

As part of a concerted effort to reduce the impact of waste collection issues on our residents, **the curbside collection of electronic waste, originally scheduled to occur from September 16th through 27th, has been cancelled for 2019**. Instead, these contracted vehicles will continue to assist Waste Connections of Canada to maintain more timely and predictable pick-ups of blue box recycling materials. As always, the County encourages residents to **drop-off unwanted electronics and electrical items at any County waste management facility free of charge** during regular operating hours. For information on your nearest waste management facility, including their operating hours and location, please consult our new Simcoe County Collects app, which can be downloaded from the App Store or Google Play for free.
Yard Waste Collection Zones

Refer to calendar pages to determine your collection weeks.

Place material out for collection by 7 a.m. on Monday of your collection week.

Collections do not necessarily occur on your garbage day.
### October 2019

Pumpkins can go in the green bin

14 - Yard Waste Collection Zones
Battery Collection Week

Watch for Battery Recycling Bags in Your Mail

1. Collect **dry cell, single-use, AA, AAA, C, D, 9-Volt and button batteries** (No rechargeable NiCad, NiMN, Lithium Ion, car batteries, battery packs or industrial batteries)

2. Place acceptable batteries into the battery bag and seal using the zip tab

3. Place bag **beside** your recycling bin on your regular collection day during the first full week of **November only**.

**Acceptable Materials**
- AA, AAA, C, D, and 9-Volt
- alkaline-manganese
- carbon zinc
- zinc air dry cell batteries
- button batteries

**Unacceptable Materials**
- Rechargeable batteries such as: NiCad, NiMH, or Lithium Ion (cell phones, lap tops, etc.)
- Car batteries
- Industrial batteries and battery packs

**ALL ZONES:**
Your collection will occur on your regular collection day during the week of November 4th.

Unacceptable batteries may be taken to a Household Hazardous Waste Facility for Free
Did you know…

Lithium rechargeable batteries from portable electronic devices such as cell phones and laptops can cause fires? Never put out for collection. Instead take them to a household hazardous waste depot for safe and free disposal.

Leaf and Yard Collection Week:
- **ZONE 1 ONLY**
- **ZONE 2 ONLY**

Remembrance Day
Waste facilities closed
Waste collection is occurring

Daylight Saving Time Ends
Create **Memories, not Waste**

- This holiday season instead of giving more stuff, try giving a shared experience, such as tickets to a movie, season passes, concert or sporting event. After the holidays, save and reuse items like boxes, wrapping paper, gift bags, ribbons, cookie tins, and decorations for next year or for kids’ crafts.

- The holiday season usually means increased waste. Help us maximize collection efficiency by flattening all boxes and paper.

- Sort recycling carefully and ensure waste is curbside by 7 a.m.

Unwanted Christmas light strands (bulbs removed) can be taken to County waste facilities for free!

Foil-like ribbons and metallic gift wrap **go in the garbage**

**Transparent plastic trays**
go in the **blue bin.**
**Black plastic trays** go in the **garbage.**

Waste facilities closed at noon
Waste facilities closed
Waste collection delayed one day for the remainder of the week
Waste facilities closed
Waste facilities closed
Christmas **Tree Collection**

- Remove plastic tree bags, decorations, and stands. Trees must be out to the curb by **7 a.m. on Monday of your collection week**.

- Collection will occur during the week, not necessarily on your garbage day.

- The **maximum size is 2 m**; if longer, cut into smaller sections.

Consult the map on page 14 to determine your collection weeks or set up personal reminders and alerts by visiting: simcoe.ca/wastereminders

To ensure collection, trees must be clearly visible and not frozen into snowbanks. Collection crews will not climb snowbanks to retrieve or dig out trees.
