

WASTE DROP-OFF FACILITY TIPS

Busy times are on **Saturdays** and early in the week; avoid these days if possible.

Material not properly sorted into the designated diversion areas cause your entire load to be charged at the **mixed-waste rate of \$310/tonne**

Separate materials in your load. Divertible materials may be free or qualify for a reduced fee (see page 3 for more information).

Insulation and Styrofoam packaging must be bagged to reduce windblown litter.

There is a minimum fee of \$10 for disposal; avoid coming to the facility with small loads.

Propane cylinders are accepted **free of charge** but please do not put them in the garbage or recycling. Notify site staff upon arrival at the facility as they are managed differently for health and safety reasons.

Vehicles must enter the scale on a green light and declare the type of waste.

Due to health and safety policies, staff can not assist with the lifting or removal of waste from vehicles.

Prior to leaving the site, vehicles **must return to the scale**. The computerized weigh scale system calculates waste disposal charges.

Payment is due prior to leaving the site.
